KEY SERVICES

> **Comprehensive 5-Year IT Plans**

> **Hosting RFP Assistance & Contract Negotiation Services**

> **DBA Audit Services**

> **Classic Project Work & Remote DBA/UNIX Support**

COMPREHENSIVE

5-Year IT Plans

By merging the requirements from all these areas, we build a comprehensive scope for the client's IT initiatives on a 5-year plan:

- HARDWARE
- INFRASTRUCTURE
- LICENSES
- SOFTWARE LEVELS AND DESUPPORT DATES
- IT PROJECTS AND INITIATIVES
- BUSINESS REQUIREMENTS AND ENHANCEMENT PROJECTS

Hosting RFP Assistance

& CONTRACT NEGOTIATION SERVICES

We assist clients with the RFP process to select a hosting company which best fits their needs.

By pointing out little-known nuances and the impacts of certain stipulations within the contracts, we help clients navigate the negotiation process successfully. Each hosting company has a "personality" and we make sure their personality fits with your company's personality.

DBA Audit Services

Whether you support your own Oracle database and/or applications in-house or whether they are hosted externally, we can help you determine if your systems are being adequately cared for.

By using our prepackaged DBA audit process, we can give you a rating of how your support compares to the gold standard. After the completion of our review, we produce an understandable and actionable report based on these areas:

- ACCOUNT SECURITY

- GENERAL DB AND APPS SECURITY

- NETWORK AND UNIX SECURITY

- PHYSICAL SECURITY

- DATABASE AND APPS ARCHITECTURE REVIEW

- BACKUPS

- DISASTER RECOVERY

- MONITORS

- DBA PROCEDURES REVIEW

Classic Project Work

& REMOTE DBA/UNIX SUPPORT

Like all Oracle shops, we provide project planning and execution for:

- DBA APPS AND DATABASE SUPPORT FOR ALL VERSIONS
  (8.0 TO R12 AND 8I TO 11G, RESPECTIVELY)

- ORACLE APPS UPGRADES

- ORACLE DB UPGRADES

- NEW INSTALLS

- ARCHIVING, APEX, DISCOVERER AND BI PUBLISHER
